## BOARD OF DIRECTORS:

- Joe Hallman, All City BackFlow Prevention & Fire Protec. Svs.
- Kenneth J. Kerr, IPP/FASSE – Kerr Marketing Agency
- Edward J. Lyczko, IPP/FASSE Cleveland Clinic Foundation ( Region 6 Director)
- Richard Prospal IP/FASSE Prospal Consulting Services
- Jason Shank – Plumbers Local 55 / UA Training Director
- Thomas Wanner – Cleveland Plumbing Industry Fund

## A Message from your NOH President . . .

September 18, 2009 When I entered into the plumbing industry in 1950, at the underwhelming rate of \$.99, per hour, to progress in plumbing was simple. A person served a five-year apprenticeship, worked for several years then retired.... no further education required!

How things have changed. Knowledge of backflow, welding, medical gas, fire stopping and residential sprinkler systems now require further training and, in most cases, certification. The problem is that, in many cases, young people in this industry fail to avail themselves of the opportunity to acquire further education in these areas.

A.S.S.E. and most other plumbing organizations offer programs that aid in this type of education, but they do not have many 'takers'. I notice that on many job applications, some types of certifications are required. In today's economy, it would seem imperative for those who seek an 'edge' in being hired, to utilize and appreciate being able to take these courses and to receive these certifications. In securing a new job, or moving up in your present job, the more education you acquire, the greater are your opportunities for advancement and making more money.

**Patrick "Pat" Sugrue**  
*President Of the Northern Ohio Chapter of ASSE*

Anyone wishing to join A.S.S.E.'s Northern Ohio Chapter will be welcome at our regular meetings. Continuing education information and credits will be available.

Those who did not attend the golf outing or the clambake missed two great events. Lots of golf and delicious steaks were enjoyed at the outing. The clam bake, held at Cleveland Yacht Club, offered a glorious evening with the most beautiful surroundings and an especially tasty clambake. Try not to miss these events next year, as they are a means to connect and network with all peoples of the plumbing industry.

See you at our first meeting on October 14, 2009, at Harry's Steak House in Independence.

**Patrick "Pat" Sugrue, President**  
**Northern Ohio Chapter of ASSE**

## Report on the Board of Director's Meeting

- The Last Board Meeting was held on September 9, 2009.
- The Board Members in attendance were Pat Sugrue, Rich Prospal, Terry Tahsler, Ed Lyczko, and Bob Tesar.
- Because it was a Social Event, an informal board meeting took place.
- Pat Sugrue inquired about the progress of the Scholarship 50/50 Raffle Ticket Sales for the Annual Meeting, from Rich Prospal. We presented Rich with a check for the first Annual NOH dedicated scholarship in the amount of \$1,000.00.
- Terry Tahsler reported that the Chapter is sound financially after the scholarship funding and the receipt of the proceeds from our Annual Joint ASSE/ASPE Golf Outing profit, in the amount of \$1,500.00.

## " THE NORTHERN OHIO CHAPTER MONTHLY MEETING - 2009"

### September 9, 2009 Joint ASSE/ASPE Meeting

The last joint meeting was a Social Event-Clam Bake and was attended by over 40 members and guests of ASSE and ASPE. Being a Social Event, we were honored to have several wives of various members in attendance. Karen Prospal, wife of International President Rich Prospal was joined by Sherrie Sugrue, wife of IPP Pat Sugrue and Ruth Lyczko, wife of Ed Lyczko, IPP and Region 6 Director. Everyone from both ASPE and ASSE enjoyed a great Clam Bake put on by the kitchen at the Cleveland Yachting Club. More details and photos later in the Newsletter. Thanks to Craig McDowell for arranging the event.

- Prior to the Clam Bake, the NOH President Pat Sugrue conducted an informal meeting with the attending Board Members, while the Cleveland Chapter of ASPE held their Board Meeting.
- Discussion were held with Rich Prospal concerning the progress of the Scholarship 50/50 Raffle Ticket Sales for the drawing at the Annual Meeting.
- Terry Tahsler presented a check for \$1,000.00 from the NOH Chapter to Rich Prospal, Chairman of the Scholarship Committee to fund the first Annual "Gerri Tesar" Memorial Scholarship Award from the Chapter to an applicant from the chapter at the Annual Meeting in San Antonio, TX in November 2009.
- Bob Tesar received and turned over a check for \$1,500.00 to Terry Tahsler for our share of the Joint Annual Golf Outing profit.

### **Northern Ohio Chapter Joint ASSE/ASPE Schedule of Coming Events, Meeting Topics & Functions:**

**October 14, 2009**  
**Commercial Water Reclamation Systems**  
**Brian Soderholm**  
**Water Control, Inc.**

**November 10, 2009**  
**NEORS - Long Term Control Plan -Combined Sewer Overflows**  
**Richard Switalski**  
**NEORS**

**December 9, 2009**  
**Chemical Waste & Vent Piping Systems**  
**Steven Leek**  
**Schott North America, Inc**

Joint meetings with ASPE are held at Harry's Steak House, 5654 Brecksville Rd. (Route 21), in Independence, Ohio just north of Rockside Road and I-77. Each Training Session starts with a Product Show at 5:00PM (NOH Chapter Board Meetings convene at that time also), and dinner follows at 6:00PM. Each Training Session/Joint Meeting and dinner will cost \$24.00 per person (subject to change) payable at the door.

- Attendance at these State Certified Training Sessions will earn you Continuing Education Units (CEU's) for each session attended.

A photograph of the Cleveland skyline, featuring several prominent skyscrapers and buildings along the waterfront. The sky is clear and blue.

# *Happenings at the Northern Ohio Chapter September 2009*

## *“What’s Going On” in the Chapter this Month*

*This month starts the beginning of the 2009-2010 Joint Meeting season for the Northern Ohio Chapter of ASSE and the Cleveland Chapter of ASPE.*

*One of the Annual events that takes place each September is the Annual ASPE/ASSE Clambake Social Gathering and Meeting.*

*This year’s event which took place on September 9, 2009 was returned to an outdoor venue at the Cleveland Yachting Club, in Rocky River, Ohio, and was arranged by Craig McDowell of Omar McDowell Co.*

*Our last few Clambakes were held inside at Harry’s Steakhouse due to the inclement weather, precipitated by several hurricane remnant weather systems. Craig is a member of the Club and arranged to have the Yacht Club kitchen put on the wonderful Bake, for the 40 or so members and guests of ASPE and ASSE.*

*Everyone there enjoyed the beautiful warm night and the wonderful food and networked with each other trading current events and personal happenings.*

*Thanks Craig for another fine and organized Clambake.*

*Between the Annual Golf Outing and the Clambake, we were blessed with good weather and great camaraderie between our members, guests and friends.*

*Our thanks go out to the many supporters, organizers, helpers, and companies that Sponsored Holes and donated Door Prizes, for these Annual functions.*

**Check out the NOH Website at [www.asse-plumbing.org](http://www.asse-plumbing.org), click on Chapters, Region VI, NOH Chapter and you will be in. Additional details and Training aids are available at the site.**

## *Additional Happenings at the NOH Chapter September 2009*

### **Applicants for Series 6005 Training Seminar Needed**

*We have been requested to help solicit an additional 8 persons to complete a Training Seminar, with Scott Lisec of CHT, by David P.Chouinard, Senior Project Manager from Osborn Engineering. David and another engineer at Osborn are trying to get an Info-Q Training Session set up with Scott Lisec at a location in the Cleveland area or somewhere between Cleveland and Columbus, OH.*

*The ASSE recently signed an agreement with CHT to allow use of the ASSE logo on their training materials and CHT will purchase the Series 6000 Standards from us to support their training efforts in certifying installers and testers. Anyone interested in attending this Series 6005 Training Session should contact Dave below:*

*Dave P. Chouinard can be reached at 216-861-2020 ext. 3048, by fax at 216-861-3329. His e-mail address is [dchouinard@osborn-eng.com](mailto:dchouinard@osborn-eng.com). Dave is also querying members of the Cleveland Chapter of ASPE for interested parties.*

---

### **September 9, 2009 Clambake Notes and Photos**

#### **from the Cleveland Yachting Club**

*The Annual ASPE/ASSE Clambake Social was moved outdoors to the Cleveland Yachting Club this year, courtesy of Craig Mc Dowell, of Omar McDowell Co. Everyone felt that we've had two good indoor Clambakes at Harry's Steakhouse, after the series of inclement weather experiences. Having it indoors loses some of the outdoor ambience associated with a fall open-air venue.*

*Over 40 members, guests, and friends enjoyed the Clambake as witnessed from these photo that follow on [page 5](#).*

**The Northern Ohio Chapter of ASSE - Established 1953**

**"Prevention Rather than Cure"**

# ASPE / ASSE Annual Clambake Photos September 9, 2009

*Everyone attending enjoyed the great food and company between both organizations  
ASPE / ASSE Clambake - September 9, 2009 - Cleveland Yachting Club -Rocky River, OH*

## CALL TO ACTION

### **Mobilize to Defend IRC Fire Sprinkler Requirements Mark Your Calendar for Wednesday, October 28th**

The 2009-2012 International Residential Code (IRC) development cycle is now underway, and to our disappointment, the National Association of Home Builders (NAHB) has submitted proposals to rescind home fire sprinkler requirements. This misguided effort disregards the demonstrated value of sprinklers in saving lives and reducing human suffering associated with residential fires. To protect the public and firefighters, we must once again stand tall by opposing these changes.

**What can I do to help?** 1) VOTE AGAINST THESE PROPOSALS, AND 2) SPREAD THE WORD. NAHB's proposals and others impacting fire- and life-safety (among them, proposals to require protection of lightweight construction in residential occupancies), will be heard at the International Code Council's (ICC) upcoming hearing in Baltimore, MD, on Wednesday, October 28th. Your attendance and vote are critical to keeping fire sprinkler requirements in the IRC.

**What's required to vote?** YOU MUST BECOME AN ICC MEMBER PRIOR TO OCTOBER 14TH (if you're not already a member) and you must attend the Baltimore hearing. Anyone with an interest in ICC codes can be a member (this includes firefighters, contractors, engineers, members of the public, etc.). It only takes a few minutes to sign up online. For more information, go to [www.IRCFireSprinkler.org/2009BaltimoreHearing.aspx](http://www.IRCFireSprinkler.org/2009BaltimoreHearing.aspx).

**Can I vote without going to Baltimore?** NO, you must be present to vote (no proxies allowed).

**Do I have to be a government official to vote?** NO, at this hearing, any ICC member, regardless of membership category, may vote.

**Can ICC government agency members send more than the 4, 8 or 12 voting delegates allowed by their agency membership?** YES, additional employees (including firefighters) can join ICC for \$35 as Associate Members, and these individuals will be permitted to vote in Baltimore.

**How important is the Baltimore vote?** THE FUTURE OF RESIDENTIAL FIRE SAFETY IN AMERICA MAY WELL HINGE ON THIS VOTE. Winning the Baltimore vote would largely assure that sprinklers will remain a requirement in the 2012 IRC. Losing the vote would 1) Almost certainly derail the progress that we've made in states that are moving towards requiring sprinklers in new homes based on the 2009 codes, and 2) Place the IRC sprinkler requirements at risk of being removed from the 2012 code at ICC's final action hearing next year.

Fire- and life-safety advocates demonstrated their commitment to safe housing last year by making an unprecedented showing at ICC's final action hearing in Minneapolis. Minneapolis represented the successful culmination of a 30-year effort to have model codes require fire sprinklers as a standard feature in all new homes. We must now ensure that this victory does not slip through our fingers.

Home fire sprinklers represent the best chance that we have of striking at the heart of America's fire problem. Please come to Baltimore and help us send a strong message to sprinkler opponents that America's Fire Service and others who support fire safe homes will not yield on this issue.

**For more information, go to [www.IRCFireSprinkler.org](http://www.IRCFireSprinkler.org).**

### **Notice! Memberships Available - Please Read Carefully:**

**The Northern Ohio Chapter of ASSE is seeking new candidates for membership in the Chapter.**

*If interested, please request an application from any member of the Chapter.*

#### **Qualifications are as follow:**

- 1.) *Candidate must be a qualified member of some phase of the Plumbing Industry (Plumber-Contractor-Inspector-Plumbing Design Engineer-Manufacturer- Journeyman-Apprentice-Manufacturer's Representative) or any other interested parties who believe in our motto "Prevention Rather Than Cure"*
- 2.) *Must be willing to actively participate in Chapter functions, organizational duties, and assignments given them by the Chapter or International ASSE.*
- 3.) *Must be willing to give freely of their talents to promote the American Society of Sanitary Engineering and its principles.*

**Applications are available from any Officer listed in the Directory within this "Connex-It" Newsletter or from the International Office of ASSE - 901 Canterbury Rd., Westlake, Ohio 44145-1480, Attn: Elaine Mathieson, Membership Coordinator, or e-mail to [elaine@asse-plumbing.org](mailto:elaine@asse-plumbing.org)**

# EXCEPTIONAL

When you specify a Woodford faucet or hydrant you're recommending the exceptional.  
The unmatched quality has made the family owned and operated  
Woodford Manufacturing Company #1 in hose connected faucets and hydrants

## Woodford RHY1 & RHY2 Roof Mount Hydrant

The RHY series of product provides water availability on the roof for washing down cooling towers, cleaning condenser coils, water for window washers and other types of roof equipment.

The RHY2 hydrant is ASSE 1052 approved with a double check valve on the nozzle which is field testable. It is not required to remove the double check to drain down the hydrant.

Both the RHY1 or RHY2 include all necessary mounting hardware for proper installation on a commercial roof including 2° shim for pitch adjustment.

Mounting system and hydrant can be ordered separately. Hydrant support is designed to allow hydrant to be installed later if needed.

WOODFORD  
MANUFACTURING COMPANY

## Woodford Model RB67 Round Box Freezeless Wall Hydrant

Designed especially for tilt-up wall construction. Fits through standard 6" diameter cored hole. Drains automatically even with hose attached. An ASSE 1052 listed double check backflow preventer is field testable.
